### What is Mind Education?

Mind education develops the ability to control with a strong mind and presents a vision of happiness with constant change and challenge spirit.

1. Strong minds enable us to overcome the difficulties in life.
2. The ability of self-control is the safety device that fully releases youth.
3. Breaking your standards is the new beginning of change and challenge.

## 2024 National Youth Conference

Organized in collaboration with the International Youth Fellowship (IYF) and the Ministry of Youth & Sports, the 2024 National Youth Conference took place at the UPSA Main Auditorium, marking a milestone in youth development in Ghana.

The conference brought together nearly 3,000 young people from across Ghana and beyond. Over four days, participants took part in enriching lectures and diverse programs, promoting communication, collaboration, and personal growth. The event focused on cultivating leadership qualities essential for success in a globalized world, empowering attendees to become inspiring leaders.

Participants also had the opportunity to learn valuable skills from experts in fields such as fashion design, banking, electrical engineering, pastry, STEM, and language, making it a rewarding experience for all.
